

GAR820

New generation of high performance tire for medium sized buses and trucks.

All position

Overview

Rim Sizes:17.5
Aspect Ratio:75mm
Section Width:235
Speed Rating:J-M

Features	Benefits
Unique tread compound and adoption of wider tread pattern and solid shoulder design.	Provide tread wearing and tearing resistance and better shoulder strength that improve resistant to irregular wear.
Bead construction	Facilitate mounting of tire to rim and improved the general uniformity and noise generation.
New casing and footprint design	Improved the mileage and the regularity of the wear pattern.
Block-design in the center of the tread.	Improves traction and braking in loaded and unloaded driving conditions.

GT RADIAL - GAR820 offers 0 different tyre sizes
