All position deep tread depth tire designed for urban city bus application

All position

Overview

Rim Sizes:22.5

Aspect Ratio:70mm

Section Width:275

Speed Rating:

| Features | Benefits |
|-------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Solid reinforced sidewalls with asymmetric wear indicators. | Robust sidewall for the protection of casings & sidewall from curbing damages. Sidewall wear indicators to assist in the proper maintenance of tire. |
| Deeper tread & hard wearing tread compound. | Designed to last longer on wear for the demanding urban bus stop and go operation. |
| Deep siping in tread pattern. | Provides good all season traction over the lifetime of the tyre. |
| Variable-pitch design shoulder rib. | Minimize noise level for added passenger comfort experience. |

GT RADIAL - GAU861 offers 0 different tyre sizes
