

GSR225

A robust and versatile COMBI ROAD steer tire developed for a wide range of highway and regional applications, from long and straight roads to narrow winding national and country roads.

All position

Overview

Rim Sizes:19.5-22.5

Aspect Ratio:0-80mm

Section Width:225-315

Speed Rating:J-M

Features	Benefits
Wider tread, special high wearing compound & optimal footprint derived from Equal Force Carcass Technology	Extends tire wear life for the versatile operating conditions its targeted for, better than its previous products
Optimized land and sea ratio on the tread, coupled with tread sipes around the grooves	Prevent irregular wear and delivers smooth and consistent wear for eventual higher mileage
Multiple sipes on the pattern block and tread sipes around the groove	Delivers excellent wet grip performance
Resilient four groove tread design	Better handling performance, controllability and improves damage resistance to road hazards
High load capacity.	Developed to cater for the higher axle weight associated with Euro VI vehicle emission regulations.
